premium hardwoods

low maintenance

uniquely beautiful

endless possibilities

high-performance

vinyl structure

finely crafted

***F**or the first time, old and new come together beautifully.*

Sherwood Custom Wood Replacement Windows and Doors artfully combine the warmth of finely crafted wood with the advanced performance of vinyl.

The results are a perfect union of distinctive beauty and superior technology.

Sherwood Replacement Windows and Doors.

It's time.

innovative...

The key to Sherwood Custom Replacement Windows & Doors is its patented TimberView Technology. This “float” method of joining together specially designed hardwoods and vinyl profiles needs no adhesives or fasteners.

This technology allows the vinyl to expand and contract with temperature fluxuations without causing the wood and vinyl to separate.

And, with a fully fusion welded vinyl frame and sash, there is no potential moisture build up behind the wood.

No other wood window technology comes close.

PHIFER **ULTRAVUE™**

EXCELLENT VISIBILITY INSECT SCREEN

Tightly woven with fine threads, UltraVue screen is ideal for windows where the focus is on the view.

- ❖ 25% better airflow, allowing light, fresh breezes to flow through
- ❖ 25% more optical clarity for a crisper, brighter outward view
- ❖ 20% Better Insect Protection

UltraVue™ Screen Mesh

Traditional Fiberglass Mesh

FlexScreen Frame

A high-performance PVC coated spring steel frame is damage resistant, beautifully invisible and effortless to install. Simply hold the screen in your hands... bend the sides in... and fit FlexScreen into your screen track.

FlexScreen is an option on double hung and slider models and a standard feature on casements.

Double Hungs & Sliders

FEATURES & BENEFITS

1. Premium hardwood interior

The rich look of an all wood window in one of our pre-finished options or ready for your paint or stain

2. 3 1/4" Fusion welded vinyl frame and sash construction

Multi-chambered frame protects wood from moisture degradation over the life of the window

3. Wood lift at lock rail

Traditional style of a typical wood window

4. Integral interlocks at meeting rail and sill

Form tight seals to keep the elements out

5. Partitioned sloped sill

Combines efficient water management of a true sloped sill with the added protection of an interlocking pocket sill

6. Recessed locks & flush mount tilt latches

Unobtrusive appearance, allows for easy cleaning

7. Constant force balance system

Smooth, quiet, adjustment-free operation

8. Heavy duty half screen

Color matched frame and UltraVue® excellent visibility screen mesh

9. Neutral jamb liner

Unless requested as white, interior jamb liner on a white exterior color double hung will be clay. This blends more naturally with interior stains.

Casements & Awnings

FEATURES & BENEFITS

1. **Premium hardwood interior** with the rich look of an all wood window in one of our pre-finished options or ready for your paint or stain.
2. **Maintenance-free vinyl exterior** multi-chambered frame is energy efficient.
3. **Fusion welded frame and sashes** are superior in strength to mechanical systems.
4. **Dual weatherstripping on sashes** minimizes air infiltration.
5. **Premium operating hardware** effortlessly handles the weight of even the heaviest sashes with smooth, quiet operation.
6. **Sealed operator housing and protected gear drive** minimizes contaminants from affecting operation.
7. **Fold-down crank handle** subtly nests into the operator housing to prevent interference with window treatments.
8. **Sashes open a full 90 degrees** for both maximum ventilation and for cleaning both sides of the glass from inside the home.
9. **Multi-point locking system** secures the sash tightly into the frame in at least three locking locations.
10. **Sequential locking operation** assists sash pull-in for effortless locking of even the tallest windows.
11. **Single lever lock handle** actuates the locking system with an audible click to signify open/closed positions.
12. **Full FlexScreen included** with UltraVue® excellent visibility screen mesh.

Bays & Bows

FEATURES & BENEFITS

- ❖ **Custom designed and manufactured to fit your home** from window color to wall thickness.
- ❖ **Color-matched, weather-proof PVC exterior** is maintenance free and resists scratching and denting.
- ❖ **Hand-selected 1-1/4" furniture-grade hardwood interior** is 67% thicker than typical products and won't delaminate or show glued seams.
- ❖ **Solid timberstrand mullion construction** with "walled in" window openings provides 25% more strength than ordinary wood so it will not twist or warp.
- ❖ **Veneer-banded edges** enable the interior casing to be installed with a reveal.
- ❖ **6" Threaded lag bolt construction** for superior strength
- ❖ **Eyebolt anchors** allow the window to be supported with the adjustable hidden turn-buckle cable system.

Optional Features:

- ❖ Superior R9 insulated seat features 1" high density foam
- ❖ Ultimate R21 insulated seat features 3" high density foam
- ❖ pre-finished external knee brace support system
- ❖ Laminated or Corian interior
- ❖ Low Voltage Recessed Lighting
- ❖ Custom 3-1/2" colonial casing
- ❖ Pre-fabricated roof in a variety of styles and colors
- ❖ Pre-stained, laminated or corian interior

Superior R9 Insulated Seat

Ultimate R21 Insulated Seat

Patio Doors

FEATURES & BENEFITS

1. **Premium hardwood interior**
The rich look of an all wood door in one of our pre-finished options or ready for your paint or stain
 2. **Maintenance-free vinyl exterior**
Multi-chambered frame is energy efficient
 3. **Fusion welded frame head and panel**
Superior in strength to mechanical systems
 4. **16-gauge aluminum reinforced panels**
Rugged construction for flawless operation
 5. **Heavy duty interlocking panels**
Forms tight seals to keep the elements out
 6. **Dual-seal weatherstripping**
Minimizes air infiltration
 7. **Stainless steel adjustable dual tandem rollers with sealed bearings**
Operate smoothly for a lifetime
 8. **Strong vinyl threshold with aluminum track**
Handles heavy traffic
 9. **Elegant interior handle in decorator finish**
Blends beautifully with wood interior and locks with a secure latch
 10. **Color-match exterior handle with keyed lock**
Corrosion-resistant to stand up to the elements
 11. **Multi-point locking system**
Securely locks the door and anti-slam mechanism prevents hardware damage
 12. **Heavy duty screen door**
Color matched frame and UltraVue® excellent visibility screen mesh
- ❖ **Other options**
Attached transom or curved tops, hardware finishes

intelligent...

IntelliGlass

Maximum Energy Efficiency is the true measure of window quality. By choosing an IntelliGlass high-performance glass package, your satisfaction is assured. Here's how IntelliGlass creates a high-performance advantage for your home.

An industry-proven system, Intercept Spacer continues to be the hallmark of performance. The secret is its flexible u-channel design. When temperatures fluctuate, the spacer system flexes, leaving the seal in tact.

- ❖ Patented U-shape construction is visually appealing
- ❖ Proven Argon Retention ensures your windows perform for a lifetime
- ❖ Superior Warm Edge Performance lowers your energy bills
- ❖ Strongest Corners available prevent seal failures
- ❖ Grid-locking system keeps grids straight and secure

Guardian's ClimaGuard Low E Glass gives every IntelliGlass package its energy efficient foundation. Address your energy needs with double or triple pane options.

- ❖ two microscopic layers of silver reflect heat back to its source
- ❖ titanium dioxide layer protects silver, so it lasts for a lifetime
- ❖ your home is cooler in the summer, as solar heat is reflected away
- ❖ your home is warmer in the winter as furnace heat is reflected back into the home
- ❖ Argon or Krypton gas acts as a warm blanket between the panes of glass, adding extra insulation

Optional Super Spacer® is the "no metal" upgrade to help your windows reduce energy costs, ensuring durability and adding comfort and value to your home. It's unique all-foam formula is the key.

- ❖ Flexible construction offsets changes in temperature, barometric pressure and wind load, ensuring long lasting seal
- ❖ Foam formula blocks heat escape path for unparalleled thermal performance
- ❖ No-metal construction resists condensation, reducing mold and allergens

Super Spacer®

Save with ENERGY STAR Qualified Windows and Doors

Windows can account for almost one-quarter of household energy use. Since most homeowners replace their windows only once in a lifetime, choosing ENERGY STAR® qualified products is more important than ever.

Installing ENERGY STAR qualified windows and doors, like Sherwood, shrinks energy bills-and carbon footprints- by 7-24% compared to non-qualified products. Sherwood Windows and Doors are available with various IntelliGlass options designed to meet ENERGY STAR requirements for each climate zone in the USA.

Oil Rubbed Bronze

Enhance your Sherwood Replacement Windows by choosing one of our **custom divider systems**.

Sherwood's unique **wood snap-in grilles** can be stained or painted to match the finish of your window.

Simulate Divided Lites Package combine our wood snap-in grille, georgian grids between the glass and permanently applied exterior grid.

Any one of our optional pre-finished stain colors will enhance the charm and character of your Sherwood Wood Replacement Windows and Patio Doors.

Our proprietary wood window and door SherFinish process will enhance and protect the charm of your Sherwood windows and doors. After fit-testing the wood to your Sherwood window or door, our skilled craftsmen hand-apply your choice of 10 premium Sherwin Williams stains or classic white paint, to all sides and surfaces of the wood PRIOR to final assembly. Clear protectant is applied, sealing all the surfaces that are unreachable after final assembly. This elaborate process ensures protection from moisture behind and underneath hardware, inside mitered corners and other areas that are unprotected on most wood windows. Our factory-applied SherFinish process provides the most professional, elegant appearance without the inconvenience of post-delivery finishing.

Poplar Finishes

Oak Finishes

indicates color matched woodgrain grids-between-glass option available with color matched exterior

Colors shown are Sherwin-Williams BAC Sher-Wood wiping stains. These color samples have been provided as a close match to the actual stained product as modern printing technology allows. Due to variations in wood (species, color, graining) and staining techniques, the stained finish will vary. Custom colors also available.

Enhance the elegant beauty of Sherwood windows by selecting SherTrim custom window trim. Amish-milled from the same premium hardwoods as Sherwood windows, the SherTrim assortment includes several widths and styles of casing, square and quarter round trim, extension jambs and decorative rosettes. Using SherTrim creates a lovely, traditional aesthetic.

All items are available in either poplar or oak and comes in several stock length sizes, allowing the trim to be fine-tuned to the individual nuances of each window.

Further enhancing the beauty of the finish work, SherTrim is available either unstained or finished using the same proprietary SherFinish process available on Sherwood windows. Not only will this factory applied finish provide the most polished appearance, but the hassles of wood and stain matching and the mess of on-site staining are eliminated.

Casement, black walnut SherFinish on poplar, 2-1/2" SherTrim colonial casing with 3" rosettes.

insurance...

Sherwood Custom Wood Windows and Patio Doors are an important investment, and your peace of mind is important to us. The best technology and most vigorous standards make Sherwood a distinguished choice. Your satisfaction is assured.

At Vinylmax we purposefully and proudly label our products "Made in USA". This doesn't just mean that our factory is in the United States. It means our family is committed to sourcing virtually all of our components from other American manufacturing companies. Not only do we support hundreds of jobs in our local community, but also many thousands of jobs across the United States. Vinylmax makes your home a better place for your family, AND supports the livelihood of thousands of American families just like ours and just like yours.

Sherwood Windows are backed by a strong transferable Lifetime Limited Warranty for as long as you live in your home. This non-prorated warranty covers vinyl, glass, screens, hardware, and accidental glass breakage.

Manufactured with TimberView Technology; the award winning patented method for bringing wood and vinyl together beautifully.

Structurally certified by AAMA; the American Architectural Manufacturers Association.

Thermally certified by NFRC; the National Fenestration Ratings Council.

ENERGY STAR® qualified versions of these products are available for all regions of the United States.
